Overview

Overview	
Quantity:	100 μg
Target:	Cnpase (CNP)
Reactivity:	Mouse, Rat
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This Cnpase antibody is un-conjugated
Application:	Western Blotting (WB), Immunohistochemistry (IHC), Immunocytochemistry (ICC)
Product Details	
Clone:	335C6
Isotype:	lgG2a
Purification:	purified IgG
Target Details	
Target:	Cnpase (CNP)
Alternative Name:	CNP 1 (CNP Products)
Background:	Synonyms: CNP, CNPase
Application Details	
Application Notes:	Optimal working dilution should be determined by the investigator. This product is not tested in

Application Details

	IP yet.
Restrictions:	For Research Use only
Handling	
Format:	Lyophilized
Buffer:	Contains 0.02 % sodium azide
Preservative:	Sodium azide
Precaution of Use:	This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.
Handling Advice:	Do not store diluted antibody solutions unless you add detergent or carrier proteins such as goat serum, BSA or others. IgG sticks to glass and plastic. Any IgG solution below 0.1 mg/mL protein will quickly adsorb and denature and thus loose activity! Repetitive freeze-thawing of dilute purified IgG is almost certain to lead to substantial losses.
Storage:	-20 °C
Storage Comment:	Unlabeled antibodies are stable in this form without loss of quality at ambient temperatures for several weeks or even months. They can be stored at 4 °C for several years.
