## Datasheet for ABIN4967077 Amylase beta ELISA Kit

### Overview

Quantity:	96 tests
Target:	Amylase beta (amyB)
Reactivity:	Human
Method Type:	Sandwich ELISA
Detection Range:	1.56 ng/mL - 100 ng/mL
Minimum Detection Limit:	1.56 ng/mL
Application:	ELISA

### Product Details

Purpose:	Human Amyb ELISA Kit is an ELISA Kit against Amyb.
Sample Type:	Cell Culture Supernatant, Cell Lysate, Plasma, Serum, Tissue Homogenate
Analytical Method:	Quantitative
Detection Method:	Colorimetric
Sensitivity:	< 0.78 ng/mL

### Target Details

Target:	Amylase beta (amyB)
Abstract:	<a href="#">amyB Products</a>
Gene ID:	4
UniProt:	<a href="#">P10243</a>

## Application Details

---

**Application Notes:** Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.  
Standard Form: Lyophilized

---

**Comment:** The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.

---

**Plate:** Pre-coated

---

**Restrictions:** For Research Use only

---

## Handling

---

**Storage:** 4 °C/-20 °C

---

**Storage Comment:** Upon receipt, store the kit according to the storage instruction in the kit's manual.
