Cathepsin K ELISA Kit

[Go to Product page](#)

Overview

Quantity:	96 tests
Target:	Cathepsin K (CTSK)
Reactivity:	Chicken
Method Type:	Sandwich ELISA
Detection Range:	1.563 pmol/L - 100 pmol/L
Minimum Detection Limit:	1.563 pmol/L
Application:	ELISA

Product Details

Purpose:	Chicken Cathepsin K ELISA Kit is an ELISA Kit against Cathepsin K.
Sample Type:	Plasma, Serum
Analytical Method:	Quantitative
Detection Method:	Colorimetric
Sensitivity:	0.94 pmol/L

Target Details

Target:	Cathepsin K (CTSK)
Abstract:	CTSK Products
Pathways:	Activation of Innate immune Response , Toll-Like Receptors Cascades

Application Details

Application Notes:	Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user. Standard Form: Lyophilized
Comment:	The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.
Plate:	Pre-coated
Restrictions:	For Research Use only

Handling

Storage:	4 °C/-20 °C
Storage Comment:	Upon receipt, store the kit according to the storage instruction in the kit's manual.
Expiry Date:	6 months
