CD8 alpha ELISA Kit

[Go to Product page](#)

Overview

Quantity:	96 tests
Target:	CD8 alpha (CD8A)
Reactivity:	Human
Method Type:	Sandwich ELISA
Detection Range:	2.81 ng/mL - 180 ng/mL
Minimum Detection Limit:	2.81 ng/mL
Application:	ELISA

Product Details

Purpose:	Human T-cell surface glycoprotein CD8 alpha chain ELISA Kit is an ELISA kit against Human T-cell surface glycoprotein CD8 alpha chain (CD8A).
Sample Type:	Plasma, Serum
Analytical Method:	Quantitative
Detection Method:	Colorimetric
Sensitivity:	< 1.2 ng/mL

Target Details

Target:	CD8 alpha (CD8A)
Alternative Name:	CD8a (CD8A Products)
Pathways:	TCR Signaling

Application Details

Application Notes: Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

Comment: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.

Plate: Pre-coated

Restrictions: For Research Use only

Handling

Storage: 4 °C/-20 °C

Storage Comment: Upon receipt, store the kit according to the storage instruction in the kit's manual.

Expiry Date: 6 months
