

Datasheet for ABIN4969790 HBSAg ELISA Kit

[Go to Product page](#)

Overview

Quantity: 96 tests

Target: HBSAg (HBsAg)

Reactivity: Human

Application: ELISA

Product Details

Purpose: Human Hepatitis B Virus Surface Antibody ELISA Kit is an ELISA Kit against Hepatitis B Virus Surface Antibody.

Sample Type: Plasma, Serum

Analytical Method: Qualitative

Detection Method: Colorimetric

Target Details

Target: HBSAg (HBsAg)

Alternative Name: Hepatitis B Virus Surface ([HBsAg Products](#))

Target Type: Viral Protein

Application Details

Application Notes: Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled.

Application Details

It is also strongly suggested that the whole assay is performed by the same user throughout.
Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

Standard Form: Lyophilized

Comment: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.

Plate: Pre-coated

Restrictions: For Research Use only

Handling

Storage: 4 °C/-20 °C

Storage Comment: Upon receipt, store the kit according to the storage instruction in the kit's manual.

Expiry Date: 6 months
