Lactate Dehydrogenase A ELISA Kit

[Go to Product page](#)

Overview

Quantity:	96 tests
Target:	Lactate Dehydrogenase A (LDHA)
Reactivity:	Rat
Method Type:	Sandwich ELISA
Detection Range:	3.12 U/L - 200 U/L
Minimum Detection Limit:	3.12 U/L
Application:	ELISA

Product Details

Purpose:	Rat L-lactate dehydrogenase A chain ELISA Kit is an ELISA kit against Rat L-lactate dehydrogenase A chain (Ldha).
Sample Type:	Plasma, Serum
Analytical Method:	Quantitative
Detection Method:	Colorimetric

Target Details

Target:	Lactate Dehydrogenase A (LDHA)
Abstract:	LDHA Products
Pathways:	Warburg Effect

Application Details

Application Notes:	Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.
Comment:	The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.
Plate:	Pre-coated
Restrictions:	For Research Use only

Handling

Storage:	4 °C/-20 °C
Storage Comment:	Upon receipt, store the kit according to the storage instruction in the kit's manual.
Expiry Date:	6 months
