

## Datasheet for ABIN4971752

## **OGP ELISA Kit**

## Overview

| Overview                 |  |
|--------------------------|--|
| Quantity:                | 96 tests   |
| Target:                  | OGP  |
| Reactivity:              | Human  |
| Method Type:             | Competition ELISA  |
| Detection Range:         | 0.156 ng/mL - 10 ng/mL   |
| Minimum Detection Limit: | 0.156 ng/mL  |
| Application:             | ELISA  |
| Product Details          |  |
| Purpose:                 | Human Osteogenic Growth Peptide ELISA Kit is an ELISA Kit against Osteogenic Growth Peptide. |
| Sample Type:             | Plasma, Serum  |
| Analytical Method:       | Quantitative   |
| Detection Method:        | Colorimetric   |
| Sensitivity:             | 0.1 ng/mL  |
|                          |  |
| Target Details           |  |
| Target Details  Target:  | OGP  |

## **Application Details**

| Application Notes: | Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less |
|--------------------|---|
|                    | than 5 % within the expiration date under appropriate storage conditions. To minimize                 |
|                    | performance fluctuations, operation procedures and lab conditions should be strictly controlled.      |
|                    | It is also strongly suggested that the whole assay is performed by the same user throughout.          |
|                    | Recommended dilutions: Optimal dilutions/concentrations should be determined by the end               |
|                    | user.   |
|                    | Standard Form: Lyophilized  |
| Comment:           | The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5%    |
|                    | within the expiration date under appropriate storage conditions. To minimize performance              |
|                    | fluctuations, operation procedures and lab conditions should be strictly controlled. It is also       |
|                    | strongly suggested that the whole assay is performed by the same user throughout.                     |
| Plate:             | Pre-coated  |
| Restrictions:      | For Research Use only   |
| Handling           |   |
| Storage:           | 4 °C/-20 °C   |
| Storage Comment:   | Upon receipt, store the kit according to the storage instruction in the kit's manual.                 |
| Expiry Date:       | 6 months  |
