1,25 Dihydroxy Vitamin D3 ELISA Kit[Go to Product page](#)

Overview

Quantity:	96 tests
Target:	1,25 Dihydroxy Vitamin D3 (DHVD3)
Reactivity:	Chemical
Method Type:	Competition ELISA
Detection Range:	1000-5000 fM/L
Minimum Detection Limit:	1000 fM/L
Application:	ELISA

Product Details

Sample Type:	Serum
Analytical Method:	Quantitative
Detection Method:	Colorimetric
Sensitivity:	250 fM/L
Material not included:	• Microplate reader. • Pipettes and pipette tips. • EP tube Deionized or distilled water.

Target Details

Target:	1,25 Dihydroxy Vitamin D3 (DHVD3)
Alternative Name:	1,25-Dihydroxyvitamin D3 (DHVD3 Products)

Target Details

Target Type: Chemical

Application Details

Application Notes: Detection Wavelength: 450 nm

Sample Volume: 100 µL

Assay Time: 1 - 4.5 h

Plate: Pre-coated

Restrictions: For Research Use only

Handling

Storage: 4 °C
