Datasheet for ABIN4986699  
**HAV IgG ELISA Kit**

### Overview

Quantity:	96 tests
Target:	HAV IgG
Reactivity:	Human
Method Type:	Competition ELISA
Application:	ELISA

### Product Details

Sample Type:	Serum
Analytical Method:	Qualitative
Detection Method:	Colorimetric
Material not included:	<ul style="list-style-type: none"><li>• Microplate reader.</li><li>• Pipettes and pipette tips.</li><li>• EP tube Deionized or distilled water.</li></ul>

### Target Details

Target:	HAV IgG
Alternative Name:	Anti-Hepatitis A Virus Antibody IgG ( <a href="#">HAV IgG Products</a> )
Target Type:	Antibody, Antibody

### Application Details

Application Notes:	Detection Wavelength: 450 nm
--------------------	------------------------------

## Application Details

---

Sample Volume:	100 µL
Assay Time:	1 - 4.5 h
Plate:	Pre-coated
Restrictions:	For Research Use only

## Handling

---

Storage:	4 °C
