Datasheet for ABIN4987040
HPV18L1 IgG ELISA Kit

Overview

Quantity:	96 tests
Target:	HPV18L1 IgG (HPV-18 L1 IgG)
Reactivity:	Human
Method Type:	Competition ELISA
Application:	ELISA

Product Details

Sample Type:	Plasma, Serum
Analytical Method:	Qualitative
Detection Method:	Colorimetric
Material not included:	<ul style="list-style-type: none">• Microplate reader.• Pipettes and pipette tips.• EP tube Deionized or distilled water.

Target Details

Target:	HPV18L1 IgG (HPV-18 L1 IgG)
Alternative Name:	Papillomavirus Type 18 L1-Capsids(HPV18L1) Antibody (IgG) (HPV-18 L1 IgG Products)
Target Type:	Antibody

Application Details

Application Notes:	Detection Wavelength: 450 nm
--------------------	------------------------------

Application Details

Sample Volume:	100 μ L
Assay Time:	1 - 4.5 h
Plate:	Pre-coated
Restrictions:	For Research Use only

Handling

Storage:	4 °C
