Datasheet for ABIN5001553 anti-DUSP13 antibody (AA 81-198) (AbBy Fluor® 750)

Overview

| Quantity: | 100 µL |
|----------------------|--|
| Target: | DUSP13 |
| Binding Specificity: | AA 81-198 |
| Reactivity: | Human |
| Host: | Rabbit |
| Clonality: | Polyclonal |
| Conjugate: | This DUSP13 antibody is conjugated to AbBy Fluor® 750 |
| Application: | Western Blotting (WB), Immunofluorescence (Cultured Cells) (IF (cc)), Immunofluorescence (Paraffin-embedded Sections) (IF (p)) |

Product Details

| Immunogen: | KLH conjugated synthetic peptide derived from human DUSP13 |
|-----------------------|--|
| lsotype: | IgG |
| Predicted Reactivity: | Human,Mouse,Rat,Cow,Sheep |
| Purification: | Purified by Protein A. |

Target Details

| Target: | DUSP13 | |
|-------------------|---|--|
| Alternative Name: | DUSP13 (DUSP13 Products) | |
| Background: | Synonyms: BEDP, Branching enzyme interacting dual specicity protein phosphatase, Dual | |

Background: Members of the protein-tyrosine phosphatase superfamilycooperate with protein kinases to regulate cell proliferation and differentiation. This superfamily is separated into two familiesbased on the substrate that is dephosphorylated. One family, thedual specificity phosphatases (DSPs) acts on both phosphotyrosineand phosphoserine/threonine residues. This gene encodes differentbut related DSP proteins through the use of non-overlapping openreading frames, alternate splicing, and presumed differenttranscription promoters. Expression of the distinct proteins from this gene has been found to be tissue specific and the proteins maybe involved in postnatal development of specific tissues. A proteinencoded by the upstream ORF was found only intestis. In mouse, a similar pattern of expression was found.Multiple alternatively spliced transcript variants were described,but the full-length sequence of only some were determined.[provided by RefSeq, Jul 2008].

| Gene ID: | 51207 | | |
|----------|--------|--|--|
| UniProt: | Q9UII6 | | |

Application Details

| Application Notes: | IF(IHC-P) 1:50-200 |
|--------------------|--|
| | IF(IHC-F) 1:50-200 IF(ICC) 1:50-200 |
| Restrictions: | For Research Use only |

Handling

| Format: | Liquid |
|--------------------|--|
| Concentration: | 1 µg/µL |
| Buffer: | Aqueous buffered solution containing 0.01M TBS (pH 7.4) with 1 % BSA, 0.03 % Proclin300 and 50 % Glycerol. |
| Preservative: | ProClin |
| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be handled by trained staff only. |

| Handling | |
|------------------|---|
| Storage: | -20 °C |
| Storage Comment: | Store at -20°C. Aliquot into multiple vials to avoid repeated freeze-thaw cycles. |
| Expiry Date: | 12 months |
