

Datasheet for ABIN500238  
**anti-MATN1 antibody (C-Term)**

## 2 Images

[Go to Product page](#)

## Overview

Quantity:	0.1 mg
Target:	MATN1
Binding Specificity:	C-Term
Reactivity:	Human, Mouse, Rat
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This MATN1 antibody is un-conjugated
Application:	Western Blotting (WB), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)), Enzyme Immunoassay (EIA)

## Product Details

Immunogen:	MATN1 antibody was raised against a 13 amino acid peptide from near the carboxy terminus of human MATN1.
Isotype:	IgG
Specificity:	This antibody detects MATN1 at C-term.
Cross-Reactivity (Details):	Species reactivity (tested): Human, mouse, rat
Purification:	Peptide affinity chromatography

## Target Details

Target:	MATN1
---------	-------

## Target Details

Alternative Name: Matrilin-1 ([MATN1 Products](#))

Background: Matrilins (MATNs) are a family of non-collagenous extra-cellular matrix (ECM) proteins consisting of four known members that have been proposed to play key roles in modulating cellular phenotypes during chondrogenesis of mesenchymal stem cells (MSCs). MATN1 and MATN3 are expressed specifically in cartilage and are among the most up-regulated ECM proteins during chondrogenesis. MATN1 is composed of two Willebrand Factor A (vWFA) domains separated by one EGF-like domain, whereas MATN3 is composed of a single N-terminal vWFA domain followed by four epidermal growth factor (EGF) repeats and a coiled-coil domain. MATN1 or MATN3 may play a role in modulating chondrogenesis during the chondrocyte differentiation process. Mutations of this gene have been associated with variety of inherited chondrodysplasias. Recent studies show that the MATN1 promoter region was associated with both susceptibility and disease progression in Adolescent idiopathic scoliosis. Synonyms: CMP, CRTM, Cartilage matrix protein, MATN1

Gene ID: 4146

NCBI Accession: [NP\\_002370](#)

UniProt: [P21941](#)

## Application Details

Application Notes: ELISA. Western blot: 1 - 2 µg/mL. Immunohistochemistry on paraffin sections.  
Other applications not tested.  
Optimal dilutions are dependent on conditions and should be determined by the user.

Restrictions: For Research Use only

## Handling

Buffer: PBS containing 0.02 % sodium azide

Preservative: Sodium azide

Precaution of Use: This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Handling Advice: Avoid repeated freezing and thawing.

Storage: 4 °C/-20 °C

Storage Comment: Store at 2 - 8 °C for up to one month or (in aliquots) at -20 °C for longer.

#### Immunohistochemistry (Paraffin-embedded Sections)

**Image 1.** Immunohistochemistry of MATN1 in human liver tissue with this product at 5 µg/ml.

#### Western Blotting

**Image 2.** Western blot analysis of MATN1 in rat liver tissue lysate with this product at (A) 1 and (B) 2 µg/ml.
