Quantity:	0.1 mg	
Target:	Survivin (BIRC5)	
Binding Specificity:	C-Term	
Reactivity:	Human	
Host:	Rabbit	
Clonality:	Polyclonal	
Conjugate:	This Survivin antibody is un-conjugated	
Application:	Western Blotting (WB), Immunofluorescence (IF), Enzyme Immunoassay (EIA)	
Product Details		
Immunogen:	Survivin antibody was raised against a peptide corresponding to amino acids near the carboxy-	
	terminus of human survivin.	
Isotype:	IgG	
Specificity:	This antibody detects IAP4 / BIRC5 at C-term.	
Cross-Reactivity (Details):	Species reactivity (tested):Human	
Purification:	Peptide affinity chromatography	
Target Details		
Target:	Survivin (BIRC5)	
Alternative Name:	IAP4 / BIRC5 (BIRC5 Products)	

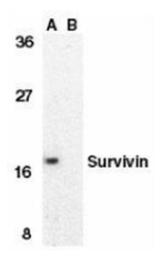

Target Details

3		
Background:	Apoptosis, or programmed cell death, is related to many diseases, such as cancer. Apoptosis is triggered by a variety of stimuli including members in the TNF family and prevented by the inhibitor of apoptosis (IAP) proteins. IAP proteins form a conserved gene family that binds to and inhibits cell death proteases. A novel IAP protein was recently identified and designated survivin, apoptosis inhibitor 4 (API4), and TIAP (1-3). Survivin/TIAP interacted with the processed form of caspase-3 and inhibited its proteolytic activity. Survivin/TIAP is predominantly expressed in tissues of embryos, transformed cell lines, and many human cancers and lymphomas (1,3). Synonyms: API4, Apoptosis inhibitor 4, Apoptosis inhibitor survivin, Baculoviral IAP repeat-containing protein 5, Survivin	
Gene ID:	332	
NCBI Accession:	NP_001159	
Pathways:	Apoptosis, Cell Division Cycle, Nuclear Hormone Receptor Binding	
Application Details		
Application Notes:	ELISA. Western blot: 0.5 to 1 µg/mL, an approximate 17 kDa band should be detected. Immunoflourescence. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.	
Restrictions:	For Research Use only	
Handling		
Buffer:	PBS containing 0.02 % sodium azide	
Preservative:	Sodium azide	
Precaution of Use:	This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.	
Handling Advice:	Avoid repeated freezing and thawing.	
Storage:	4 °C/-20 °C	
Storage Comment:	Store at 2 - 8 °C for up to one month or (in aliquots) at -20 °C for longer.	

Immunofluorescence

Image 1. Immunocytochemistry staining of MOLT4 cells using AP30844PU-N at 10 μ g/ml.

Western Blotting

Image 2. Western blot analysis of survivin in MOLT4 cell lysate in the absence (A) or presence (B) of blocking peptide with this product at 1 μ g/ml.
