

Datasheet for ABIN5011873

**anti-Transferrin antibody (AA 1-698) (AbBy Fluor® 680)**[Go to Product page](#)

## Overview

|                      |                                                            |
|----------------------|------------------------------------------------------------|
| Quantity:            | 100 µL                                                     |
| Target:              | Transferrin (TF)                                           |
| Binding Specificity: | AA 1-698                                                   |
| Reactivity:          | Human                                                      |
| Host:                | Rabbit                                                     |
| Clonality:           | Polyclonal                                                 |
| Conjugate:           | This Transferrin antibody is conjugated to AbBy Fluor® 680 |
| Application:         | Western Blotting (WB)                                      |

## Product Details

|                   |                                                                    |
|-------------------|--------------------------------------------------------------------|
| Immunogen:        | Full length native Transferrin protein purified from human plasma. |
| Isotype:          | IgG                                                                |
| Cross-Reactivity: | Goat, Human, Mouse, Rat                                            |
| Purification:     | Purified by Protein A.                                             |

## Target Details

|                   |                                                                                                                            |
|-------------------|----------------------------------------------------------------------------------------------------------------------------|
| Target:           | Transferrin (TF)                                                                                                           |
| Alternative Name: | Transferrin ( <a href="#">TF Products</a> )                                                                                |
| Background:       | Synonyms: TFQTL1, PRO1557, PRO2086, Serotransferrin, Transferrin, Beta-1 metal-binding globulin, Siderophilin, TF, PRO1400 |

## Target Details

Background: Transferrins are iron binding transport proteins which can bind two Fe(3+) ions in association with the binding of an anion, usually bicarbonate. It is responsible for the transport of iron from sites of absorption and heme degradation to those of storage and utilization. Serum transferrin may also have a further role in stimulating cell proliferation.

Gene ID: 7018

UniProt: [P02787](#)

Pathways: [Transition Metal Ion Homeostasis](#)

## Application Details

Application Notes: IF(IHC-P) 1:50-200

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: 1 µg/µL

Buffer: Aqueous buffered solution containing 0.01M TBS ( pH 7.4) with 1 % BSA, 0.03 % Proclin300 and 50 % Glycerol.

Storage: -20 °C

Storage Comment: Store at -20°C. Aliquot into multiple vials to avoid repeated freeze-thaw cycles.

Expiry Date: 12 months
