Datasheet for ABIN5014540  
**anti-WASP antibody (AA 1-298)**

2 Images

Overview

Quantity:	100 µL
Target:	WASP (WAS)
Binding Specificity:	AA 1-298
Reactivity:	Rat
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This WASP antibody is un-conjugated
Application:	Western Blotting (WB), Immunohistochemistry (IHC), Immunocytochemistry (ICC)

Product Details

Immunogen:	WASP (Met1-Gly298)
Isotype:	IgG
Specificity:	The antibody is a rabbit polyclonal antibody raised against WASP. It has been selected for its ability to recognize WASP in immunohistochemical staining and western blotting.
Purification:	Antigen-specific affinity chromatography

Target Details

Target:	WASP (WAS)
Alternative Name:	Wiskott Aldrich Syndrome Protein (WASP) ( <a href="#">WAS Products</a> )
Background:	Alternative Names: WAS, IMD2, THC, Eczema-Thrombocytopenia

## Application Details

Application Notes: • Western blotting: 1:50-400 Immunocytochemistry in formalin fixed cells: 1:50-500 Immunohistochemistry in formalin fixed frozen section: 1:50-500 Immunohistochemistry in paraffin section: 1:10-100 Enzyme-linked Immunosorbent Assay: 1:100-1:5000 Optimal working dilutions must be determined by end user.

Comment: The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.

Restrictions: For Research Use only

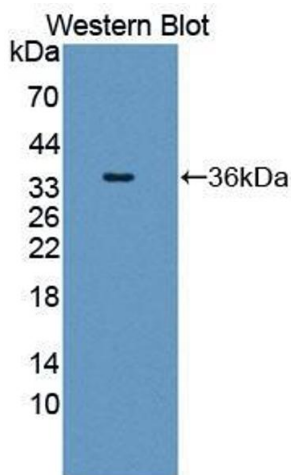

## Handling

Format: Liquid

Concentration: Lot specific

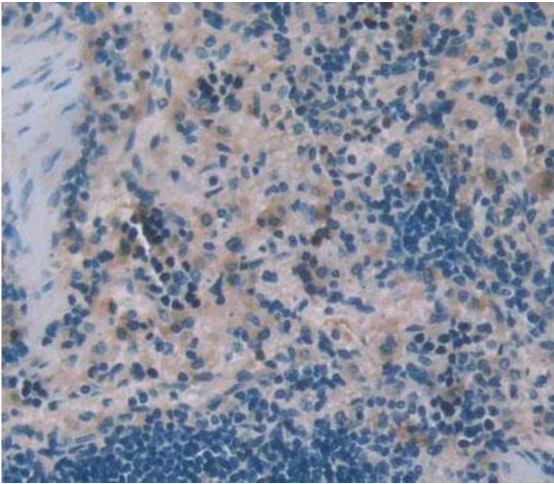

Buffer: PBS, pH 7.4, containing 0.02 % Sodium azide, 50 % glycerol.
