## Hepatitis B Virus Core Antigen (HBcAg) ELISA Kit

### Overview

Quantity:	96 tests
Target:	Hepatitis B Virus Core Antigen (HBcAg)
Reactivity:	Rat
Method Type:	Sandwich ELISA
Application:	ELISA

### Product Details

Purpose:	Rat Hepatitis B Core Antigen ELISA Kit is an ELISA kit against Rat Hepatitis B Core Antigen.
Sample Type:	Cell Culture Supernatant, Plasma, Serum
Analytical Method:	Qualitative
Detection Method:	Colorimetric

### Target Details

Target:	Hepatitis B Virus Core Antigen (HBcAg)
Alternative Name:	Hepatitis B Core Antigen ( <a href="#">HBcAg Products</a> )
Target Type:	Viral Protein

### Application Details

Application Notes:	Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled.
--------------------	--

## Application Details

---

It is also strongly suggested that the whole assay is performed by the same user throughout.  
Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

---

Comment: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.

---

Plate: Pre-coated

---

Restrictions: For Research Use only

## Handling

---

Storage: 4 °C/-20 °C

---

Storage Comment: Upon receipt, store the kit according to the storage instruction in the kit's manual.

---

Expiry Date: 6 months
