## Datasheet for ABIN5505683 IGFL1 Protein (Myc-DYKDDDDK Tag)

Image

## Overview

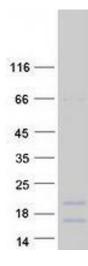

| Quantity:                     | 20 µg                                                                                                                                                                                                                                                                                                                                                                                                    |
|-------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:                       | IGFL1                                                                                                                                                                                                                                                                                                                                                                                                    |
| Origin:                       | Human                                                                                                                                                                                                                                                                                                                                                                                                    |
| Source:                       | HEK-293 Cells                                                                                                                                                                                                                                                                                                                                                                                            |
| Protein Type:                 | Recombinant                                                                                                                                                                                                                                                                                                                                                                                              |
| Purification tag / Conjugate: | This IGFL1 protein is labelled with Myc-DYKDDDDK Tag.                                                                                                                                                                                                                                                                                                                                                    |
| Application:                  | Antibody Production (AbP), Standard (STD)                                                                                                                                                                                                                                                                                                                                                                |
| Product Details               |                                                                                                                                                                                                                                                                                                                                                                                                          |
| Characteristics:              | <ul><li>Recombinant human IGFL1 protein expressed in HEK293 cells.</li><li>Produced with end-sequenced ORF clone</li></ul>                                                                                                                                                                                                                                                                               |
| Purity:                       | > 80 % as determined by SDS-PAGE and Coomassie blue staining                                                                                                                                                                                                                                                                                                                                             |
| Target Details                |                                                                                                                                                                                                                                                                                                                                                                                                          |
| Target:                       | IGFL1                                                                                                                                                                                                                                                                                                                                                                                                    |
| Alternative Name:             | IGFL1 (IGFL1 Products)                                                                                                                                                                                                                                                                                                                                                                                   |
| Background:                   | The protein encoded by this gene is a member of the insulin-like growth factor family of signaling molecules. The encoded protein is synthesized as a precursor protein and is proteolytically cleaved to form a secreted mature peptide. The mature peptide binds to a receptor, which in mouse was found on the cell surface of T cells. Increased expression of this gene may be linked to psoriasis. |

| Target Details      |                                                                                         |
|---------------------|-----------------------------------------------------------------------------------------|
| Molecular Weight:   | 12.2 kDa                                                                                |
| NCBI Accession:     | NP_940943                                                                               |
| Application Details |                                                                                         |
| Application Notes:  | Recombinant human proteins can be used for:                                             |
|                     | Native antigens for optimized antibody production                                       |
|                     | Positive controls in ELISA and other antibody assays                                    |
| Comment:            | The tag is located at the C-terminal.                                                   |
| Restrictions:       | For Research Use only                                                                   |
| Handling            |                                                                                         |
| Concentration:      | 50 µg/mL                                                                                |
| Buffer:             | 25 mM Tris.HCl, pH 7.3, 100 mM glycine, 10 % glycerol.                                  |
| Storage:            | -80 °C                                                                                  |
| Storage Comment:    | Store at -80°C. Thaw on ice, aliquot to individual single-use tubes, and then re-freeze |

immediately. Only 2-3 freeze thaw cycles are recommended.
