### 1 Image

#### Overview

|                               |   |
|-------------------------------|---|
| Quantity:                     | 50 µg                                       |
| Target:                       | RBFA  |
| Origin:                       | Human                                       |
| Source:                       | Escherichia coli (E. coli)                  |
| Protein Type:                 | Recombinant                                 |
| Purification tag / Conjugate: | This RBFA protein is labelled with His tag. |
| Application:                  | Antibody Production (AbP), Standard (STD)   |

#### Product Details

|                  |   |
|------------------|---|
| Characteristics: | <ul style="list-style-type: none"><li>• Recombinant human Purified recombinant protein of Human ribosome binding factor A (putative) (RBFA), nuclear gene encoding mitochondrial protein, transcript variant 2, full length, with N-terminal HIS tag, expressed in E.coli, 50 µg (full length, N-term HIS tag, transcript variant 2) protein expressed in E.coli.</li><li>• Produced with end-sequenced ORF clone</li></ul> |
|------------------|---|

|               |  |
|---------------|--|
| Purification: | Purified   |
| Purity:       | > 80 % as determined by SDS-PAGE and Coomassie blue staining |

#### Target Details

|                   |   |
|-------------------|---|
| Target:           | RBFA  |
| Alternative Name: | ribosome binding factor A ( <a href="#">RBFA Products</a> ) |
| Molecular Weight: | 27.5 kDa  |

## Target Details

---

NCBI Accession: [NP\\_001165438](#)

## Application Details

---

Application Notes: Recombinant human proteins can be used for:  
Native antigens for optimized antibody production  
Positive controls in ELISA and other antibody assays

Comment: The tag is located at the N-terminal.

Restrictions: For Research Use only

## Handling

---

Concentration: 50 µg/mL

Buffer: 25 mM Tris, pH 8.0, 150 mM NaCl, 10 % glycerol, 1 % Sarkosyl.

Storage: -80 °C

Storage Comment: Store at -80°C. Thaw on ice, aliquot to individual single-use tubes, and then re-freeze immediately. Only 2-3 freeze thaw cycles are recommended.
