## Ret Proto-Oncogene Protein (RET) (GST tag)

### Overview

|                               |   |
|-------------------------------|---|
| Quantity:                     | 10 µg   |
| Target:                       | Ret Proto-Oncogene (RET)                                  |
| Origin:                       | Human   |
| Source:                       | Insect Cells  |
| Protein Type:                 | Recombinant   |
| Biological Activity:          | Active  |
| Purification tag / Conjugate: | This Ret Proto-Oncogene protein is labelled with GST tag. |
| Application:                  | Functional Studies (Func)                                 |

### Product Details

|                  |                                   |
|------------------|-----------------------------------|
| Characteristics: | Recombinant Human RET (N-GST tag) |
| Purity:          | 70 % - 90 %                       |

### Target Details

|                   |  |
|-------------------|--|
| Target:           | Ret Proto-Oncogene (RET)   |
| Alternative Name: | RET ( <a href="#">RET Products</a> )   |
| Molecular Weight: | 74   |
| NCBI Accession:   | <a href="#">NM_020630</a>  |
| Pathways:         | <a href="#">RTK Signaling</a> , <a href="#">Dopaminergic Neurogenesis</a> , <a href="#">Regulation of Cell Size</a> , <a href="#">Tube Formation</a> |

## Application Details

---

Application Notes: Optimal working dilution should be determined by the investigator.

---

Restrictions: For Research Use only

---

## Handling

---

Format: Liquid

---

Storage: -80 °C

---

Storage Comment: Store product at -70°C. For optimal storage, aliquot target into smaller quantities after centrifugation and store at recommended temperature. For most favorable performance, avoid repeated handling and multiple freeze/thaw cycles.
