Datasheet for ABIN5509339 IL-11 Protein

Image

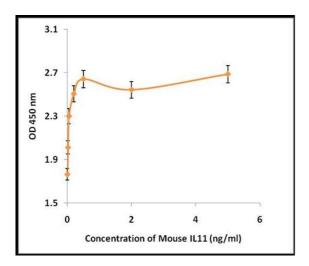

## Overview

| Quantity:            | 10 µg  |
|----------------------|--|
| Target:              | IL-11 (IL11)   |
| Origin:              | Mouse  |
| Source:              | Escherichia coli (E. coli)                                   |
| Protein Type:        | Recombinant  |
| Biological Activity: | Active   |
| Application:         | Functional Studies (Func)                                    |
| Product Details      |  |
| Characteristics:     | Recombinant Mouse IL11                                       |
| Purity:              | >95 % as determined by SDS-PAGE                              |
| Endotoxin Level:     | < 1.0 EU of endotoxin/µg of protein                          |
| Target Details       |  |
| Target:              | IL-11 (IL11)   |
| Alternative Name:    | IL11 (IL11 Products)   |
| Molecular Weight:    | 19   |
| Gene ID:             | 16156  |
| UniProt:             | P47873   |
| Pathways:            | JAK-STAT Signaling, Negative Regulation of Hormone Secretion |

| Application Details |  |
|---------------------|--|
| Application Notes:  | Optimal working dilution should be determined by the investigator.   |
| Restrictions:       | For Research Use only  |
| Handling            |  |
| Format:             | Lyophilized  |
| Reconstitution:     | A quick spin of the vial followed by reconstitution in sterile distilled water to a concentration not less than 0.1 mg/mL is recommended. Please note, filter sterilization is a must following reconstitution. This solution can then be diluted into other buffers.  |
| Storage:            | 4 °C,-20 °C  |
| Storage Comment:    | The lyophilized protein is stable for at least one year from date of receipt at -70°C. Upon reconstitution, this cytokine can be stored in working aliquots at 2° - 8°C for one month, or at - 20°C for six months, with a carrier protein without detectable loss of activity. Avoid repeated freeze/thaw cycles. |

## Validation report #103788 for Haemagglutination (H)
