Product Details

Immunogen:	This SNX2 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 457-485 amino acids from the C-terminal region of human SNX2.
Isotype:	Ig Fraction
Purification:	This antibody is purified through a protein A column, followed by peptide affinity purification.

Target Details

Target:	Sorting Nexin 2 (SNX2)
Alternative Name:	SNX2 (SNX2 Products)
Background:	This gene encodes a member of the sorting nexin family. Members of this family contain a phox (PX) domain, which is a phosphoinositide binding domain, and are involved in intracellular trafficking. This protein associates with formin-binding protein 17, but its function is unknown.

Target Details

	This protein may form oligomeric complexes with family members.
