## Overview

|              |                                                                                    |
|--------------|------------------------------------------------------------------------------------|
| Quantity:    | 100 µg                                                                             |
| Target:      | Sestrin 2 (SESN2)                                                                  |
| Reactivity:  | Human, Mouse, Rat                                                                  |
| Host:        | Rabbit                                                                             |
| Clonality:   | Polyclonal                                                                         |
| Conjugate:   | This Sestrin 2 antibody is conjugated to Biotin                                    |
| Application: | Western Blotting (WB), ELISA, Immunohistochemistry (IHC), Immunoprecipitation (IP) |

## Product Details

### Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Target:           | Sestrin 2 (SESN2)                        |
| Alternative Name: | SESN2 ( <a href="#">SESN2 Products</a> ) |
| UniProt:          | <a href="#">P58004</a>                   |

### Application Details

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
