## anti-HCV E2 antibody (AA 482-671) (APC)

[Go to Product page](#)

### Overview

|                      |                                                                                                       |
|----------------------|-------------------------------------------------------------------------------------------------------|
| Quantity:            | 150 µg                                                                                                |
| Target:              | HCV E2                                                                                                |
| Binding Specificity: | AA 482-671                                                                                            |
| Reactivity:          | Hepatitis C Virus (HCV)                                                                               |
| Host:                | Rabbit                                                                                                |
| Clonality:           | Polyclonal                                                                                            |
| Conjugate:           | This HCV E2 antibody is conjugated to APC                                                             |
| Application:         | Immunofluorescence (IF), Immunohistochemistry (IHC), Immunocytochemistry (ICC), Flow Cytometry (FACS) |

### Product Details

|                  |                                                              |
|------------------|--------------------------------------------------------------|
| Brand:           | AssayLite™                                                   |
| Immunogen:       | Hepatitis C Virus HCV-E2 (482-671 aa) expressed in E. coli   |
| Characteristics: | Purified antibody validated for specificity and sensitivity. |
| Purification:    | Affinity Purified                                            |

### Target Details

|                   |                                                          |
|-------------------|----------------------------------------------------------|
| Target:           | HCV E2                                                   |
| Alternative Name: | Hepatitis C Virus E2 ( <a href="#">HCV E2 Products</a> ) |
| Target Type:      | Viral Protein                                            |

Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Lyophilized                                                                                                            |
| Buffer:            | Lyophilized from PBS pH 7.4, 20 mg/mL BSA, and 0.02 % Sodium Azide                                                     |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
