### Overview

|              |                                                                                                       |
|--------------|-------------------------------------------------------------------------------------------------------|
| Quantity:    | 150 µg                                                                                                |
| Target:      | CKB                                                                                                   |
| Reactivity:  | Human                                                                                                 |
| Host:        | Rabbit                                                                                                |
| Clonality:   | Polyclonal                                                                                            |
| Conjugate:   | This CKB antibody is conjugated to APC                                                                |
| Application: | Immunohistochemistry (IHC), Immunocytochemistry (ICC), Immunofluorescence (IF), Flow Cytometry (FACS) |

### Product Details

|                  |                                                              |
|------------------|--------------------------------------------------------------|
| Brand:           | AssayLite™                                                   |
| Immunogen:       | Human CKBB purified from human plasma                        |
| Characteristics: | Purified antibody validated for specificity and sensitivity. |
| Purification:    | Affinity Purified                                            |

### Target Details

|                   |                                                                |
|-------------------|----------------------------------------------------------------|
| Target:           | CKB                                                            |
| Alternative Name: | Creatine Kinase B-type (CKBB) ( <a href="#">CKB Products</a> ) |
| Gene ID:          | 1152                                                           |
| UniProt:          | <a href="#">P12277</a>                                         |

## Application Details

---

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

## Handling

---

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Lyophilized                                                                                                            |
| Buffer:            | Lyophilized from PBS pH 7.4, 20 mg/mL BSA, and 0.02 % Sodium Azide                                                     |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
