

Datasheet for ABIN5565233

**anti-Cathepsin E antibody (AA 57-363) (PerCP)**[Go to Product page](#)

## Overview

|                      |                                                  |
|----------------------|--------------------------------------------------|
| Quantity:            | 150 µg                                           |
| Target:              | Cathepsin E (CTSE)                               |
| Binding Specificity: | AA 57-363                                        |
| Reactivity:          | Human                                            |
| Host:                | Rabbit                                           |
| Clonality:           | Polyclonal                                       |
| Conjugate:           | This Cathepsin E antibody is conjugated to PerCP |
| Application:         | Flow Cytometry (FACS)                            |

## Product Details

|                  |                                                              |
|------------------|--------------------------------------------------------------|
| Brand:           | AssayLite™                                                   |
| Immunogen:       | Human CTSE (57-363 aa) expressed in E. coli.                 |
| Characteristics: | Purified antibody validated for specificity and sensitivity. |
| Purification:    | Affinity Purified                                            |

## Target Details

|           |                               |
|-----------|-------------------------------|
| Target:   | Cathepsin E (CTSE)            |
| Abstract: | <a href="#">CTSE Products</a> |
| Gene ID:  | 1510                          |
| UniProt:  | <a href="#">P14091</a>        |

## Application Details

---

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
|--------------------|--------------------------------------------------------------------|

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

---

|         |             |
|---------|-------------|
| Format: | Lyophilized |
|---------|-------------|

|         |                                                                    |
|---------|--------------------------------------------------------------------|
| Buffer: | Lyophilized from PBS pH 7.4, 20 mg/mL BSA, and 0.02 % Sodium Azide |
|---------|--------------------------------------------------------------------|

|               |              |
|---------------|--------------|
| Preservative: | Sodium azide |
|---------------|--------------|

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
