

Datasheet for ABIN5565285

**anti-Cardiac Troponin T2 antibody (AA 1-285) (Biotin)**[Go to Product page](#)

## Overview

|                      |                                                           |
|----------------------|-----------------------------------------------------------|
| Quantity:            | 150 µg                                                    |
| Target:              | Cardiac Troponin T2 (cTnT)                                |
| Binding Specificity: | AA 1-285                                                  |
| Reactivity:          | Human                                                     |
| Host:                | Rabbit                                                    |
| Clonality:           | Polyclonal                                                |
| Conjugate:           | This Cardiac Troponin T2 antibody is conjugated to Biotin |
| Application:         | Enzyme Immunoassay (EIA), Radioimmunoassay (RIA)          |

## Product Details

|                  |                                                              |
|------------------|--------------------------------------------------------------|
| Immunogen:       | Human Troponin T (1-285 aa) expressed in E. coli             |
| Characteristics: | Purified antibody validated for specificity and sensitivity. |
| Purification:    | Affinity Purified                                            |

## Target Details

|                   |                                                        |
|-------------------|--------------------------------------------------------|
| Target:           | Cardiac Troponin T2 (cTnT)                             |
| Alternative Name: | Troponin T (Cardiac) ( <a href="#">cTnT Products</a> ) |
| Gene ID:          | 7139                                                   |

Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Buffer:            | PBS pH 7.4, 50 % Glycerol, and 0.02 % Sodium Azide                                                                     |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
