## Overview

|              |                                                                                                       |
|--------------|-------------------------------------------------------------------------------------------------------|
| Quantity:    | 150 µg                                                                                                |
| Target:      | Azurocidin (AZU1)                                                                                     |
| Reactivity:  | Human                                                                                                 |
| Host:        | Rabbit                                                                                                |
| Clonality:   | Polyclonal                                                                                            |
| Conjugate:   | This Azurocidin antibody is conjugated to PE                                                          |
| Application: | Immunohistochemistry (IHC), Immunocytochemistry (ICC), Immunofluorescence (IF), Flow Cytometry (FACS) |

## Product Details

|                  |                                                              |
|------------------|--------------------------------------------------------------|
| Brand:           | AssayLite™                                                   |
| Immunogen:       | Human Azurocidin purified from human neutrophil              |
| Characteristics: | Purified antibody validated for specificity and sensitivity. |
| Purification:    | Affinity Purified                                            |

## Target Details

|                   |                                              |
|-------------------|----------------------------------------------|
| Target:           | Azurocidin (AZU1)                            |
| Alternative Name: | Azurocidin ( <a href="#">AZU1 Products</a> ) |
| Gene ID:          | 566                                          |
| UniProt:          | <a href="#">P20160</a>                       |

## Application Details

---

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
|--------------------|--------------------------------------------------------------------|

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

---

|         |             |
|---------|-------------|
| Format: | Lyophilized |
|---------|-------------|

|         |                                                                    |
|---------|--------------------------------------------------------------------|
| Buffer: | Lyophilized from PBS pH 7.4, 20 mg/mL BSA, and 0.02 % Sodium Azide |
|---------|--------------------------------------------------------------------|

|               |              |
|---------------|--------------|
| Preservative: | Sodium azide |
|---------------|--------------|

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
