

Datasheet for ABIN5566683  
**anti-FABP7 antibody (AA 1-132) (Biotin)**

[Go to Product page](#)

## Overview

|                      |                                                                         |
|----------------------|-------------------------------------------------------------------------|
| Quantity:            | 150 µg                                                                  |
| Target:              | FABP7                                                                   |
| Binding Specificity: | AA 1-132                                                                |
| Reactivity:          | Human                                                                   |
| Host:                | Rabbit                                                                  |
| Clonality:           | Polyclonal                                                              |
| Conjugate:           | This FABP7 antibody is conjugated to Biotin                             |
| Application:         | Western Blotting (WB), Enzyme Immunoassay (EIA), Radioimmunoassay (RIA) |

## Product Details

|                  |                                                              |
|------------------|--------------------------------------------------------------|
| Immunogen:       | Human FABP7 (1-132aa) expressed in E. coli.                  |
| Characteristics: | Purified antibody validated for specificity and sensitivity. |
| Purification:    | Affinity Purified                                            |

## Target Details

|                   |                                                                         |
|-------------------|-------------------------------------------------------------------------|
| Target:           | FABP7                                                                   |
| Alternative Name: | Fatty Acid-Binding Protein 7 (FABP7) ( <a href="#">FABP7 Products</a> ) |
| Gene ID:          | 2173                                                                    |
| UniProt:          | <a href="#">O15540</a>                                                  |

Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Buffer:            | PBS pH 7.4, 50 % Glycerol, and 0.02 % Sodium Azide                                                                     |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
