## Overview

|                      |                                                  |
|----------------------|--------------------------------------------------|
| Quantity:            | 150 µg                                           |
| Target:              | LITAF                                            |
| Binding Specificity: | AA 1-161                                         |
| Reactivity:          | Human                                            |
| Host:                | Rabbit                                           |
| Clonality:           | Polyclonal                                       |
| Conjugate:           | This LITAF antibody is un-conjugated             |
| Application:         | Enzyme Immunoassay (EIA), Radioimmunoassay (RIA) |

## Product Details

|                  |                                                              |
|------------------|--------------------------------------------------------------|
| Immunogen:       | Human LITAF (1-161 aa) expressed in E. Coli.                 |
| Characteristics: | Purified antibody validated for specificity and sensitivity. |
| Purification:    | Affinity Purified                                            |

## Target Details

|                   |                                                                         |
|-------------------|-------------------------------------------------------------------------|
| Target:           | LITAF                                                                   |
| Alternative Name: | LPS-induced TNF-alpha Factor (LITAF) ( <a href="#">LITAF Products</a> ) |
| Gene ID:          | 9516                                                                    |
| UniProt:          | <a href="#">Q99732</a>                                                  |
| Pathways:         | <a href="#">Cellular Response to Molecule of Bacterial Origin</a>       |

Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Buffer:            | PBS pH 7.4, 50 % Glycerol, and 0.02 % Sodium Azide                                                                     |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
