

Datasheet for ABIN5567557

**anti-BCL2L10 antibody (AA 1-172) (PE)**[Go to Product page](#)

## Overview

|                      |                                                                                                       |
|----------------------|-------------------------------------------------------------------------------------------------------|
| Quantity:            | 150 µg                                                                                                |
| Target:              | BCL2L10                                                                                               |
| Binding Specificity: | AA 1-172                                                                                              |
| Reactivity:          | Human                                                                                                 |
| Host:                | Rabbit                                                                                                |
| Clonality:           | Polyclonal                                                                                            |
| Conjugate:           | This BCL2L10 antibody is conjugated to PE                                                             |
| Application:         | Immunohistochemistry (IHC), Immunocytochemistry (ICC), Immunofluorescence (IF), Flow Cytometry (FACS) |

## Product Details

|                  |                                                              |
|------------------|--------------------------------------------------------------|
| Brand:           | AssayLite™                                                   |
| Immunogen:       | Human BCL2L10 (1-172 aa) expressed in E. coli                |
| Characteristics: | Purified antibody validated for specificity and sensitivity. |
| Purification:    | Affinity Purified                                            |

## Target Details

|                   |                                              |
|-------------------|----------------------------------------------|
| Target:           | BCL2L10                                      |
| Alternative Name: | BCL2L10 ( <a href="#">BCL2L10 Products</a> ) |
| Gene ID:          | 10017                                        |

Target Details

|           |                                               |
|-----------|-----------------------------------------------|
| Pathways: | Positive Regulation of Endopeptidase Activity |
|-----------|-----------------------------------------------|

Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
|--------------------|--------------------------------------------------------------------|

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

Handling

|         |             |
|---------|-------------|
| Format: | Lyophilized |
|---------|-------------|

|         |                                                                    |
|---------|--------------------------------------------------------------------|
| Buffer: | Lyophilized from PBS pH 7.4, 20 mg/mL BSA, and 0.02 % Sodium Azide |
|---------|--------------------------------------------------------------------|

|               |              |
|---------------|--------------|
| Preservative: | Sodium azide |
|---------------|--------------|

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
