**anti-STMN4 antibody (AA 1-216) (PerCP)**[Go to Product page](#)

## Overview

|                      |                                            |
|----------------------|--------------------------------------------|
| Quantity:            | 150 µg                                     |
| Target:              | STMN4                                      |
| Binding Specificity: | AA 1-216                                   |
| Reactivity:          | Human                                      |
| Host:                | Rabbit                                     |
| Clonality:           | Polyclonal                                 |
| Conjugate:           | This STMN4 antibody is conjugated to PerCP |
| Application:         | Flow Cytometry (FACS)                      |

## Product Details

|                  |                                                              |
|------------------|--------------------------------------------------------------|
| Brand:           | AssayLite™                                                   |
| Immunogen:       | Human STMN4 (1-216 aa) expressed in E. Coli.                 |
| Characteristics: | Purified antibody validated for specificity and sensitivity. |
| Purification:    | Affinity Purified                                            |

## Target Details

|                   |                                                            |
|-------------------|------------------------------------------------------------|
| Target:           | STMN4                                                      |
| Alternative Name: | Stathmin-4 (RB3, STMN4) ( <a href="#">STMN4 Products</a> ) |
| Gene ID:          | 81551                                                      |
| UniProt:          | <a href="#">Q9H169</a>                                     |

## Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Lyophilized                                                                                                            |
| Buffer:            | Lyophilized from PBS pH 7.4, 20 mg/mL BSA, and 0.02 % Sodium Azide                                                     |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
