## **anti-FABP1 antibody (AA 1-127) (APC)**

[Go to Product page](#)

### Overview

|                      |                                                                                                       |
|----------------------|-------------------------------------------------------------------------------------------------------|
| Quantity:            | 150 µg                                                                                                |
| Target:              | FABP1                                                                                                 |
| Binding Specificity: | AA 1-127                                                                                              |
| Reactivity:          | Human                                                                                                 |
| Host:                | Rabbit                                                                                                |
| Clonality:           | Polyclonal                                                                                            |
| Conjugate:           | This FABP1 antibody is conjugated to APC                                                              |
| Application:         | Immunohistochemistry (IHC), Immunocytochemistry (ICC), Immunofluorescence (IF), Flow Cytometry (FACS) |

### Product Details

|                  |                                                              |
|------------------|--------------------------------------------------------------|
| Brand:           | AssayLite™                                                   |
| Immunogen:       | Human FABP1 (1-127aa) expressed in E. coli.                  |
| Characteristics: | Purified antibody validated for specificity and sensitivity. |
| Purification:    | Affinity Purified                                            |

### Target Details

|                   |                                                                         |
|-------------------|-------------------------------------------------------------------------|
| Target:           | FABP1                                                                   |
| Alternative Name: | Fatty Acid-Binding Protein 1 (FABP1) ( <a href="#">FABP1 Products</a> ) |
| Gene ID:          | 2168                                                                    |

## Target Details

|           |                                                                                |
|-----------|--------------------------------------------------------------------------------|
| UniProt:  | <a href="#">P07148</a>                                                         |
| Pathways: | <a href="#">Chromatin Binding, Regulation of Lipid Metabolism by PPARAlpha</a> |

## Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Lyophilized                                                                                                            |
| Buffer:            | Lyophilized from PBS pH 7.4, 20 mg/mL BSA, and 0.02 % Sodium Azide                                                     |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
