**anti-FABP1 antibody (AA 1-127) (FITC)**[Go to Product page](#)

## Overview

|                      |                                                                                                       |
|----------------------|-------------------------------------------------------------------------------------------------------|
| Quantity:            | 150 µg                                                                                                |
| Target:              | FABP1                                                                                                 |
| Binding Specificity: | AA 1-127                                                                                              |
| Reactivity:          | Human                                                                                                 |
| Host:                | Rabbit                                                                                                |
| Clonality:           | Polyclonal                                                                                            |
| Conjugate:           | This FABP1 antibody is conjugated to FITC                                                             |
| Application:         | Immunohistochemistry (IHC), Immunocytochemistry (ICC), Immunofluorescence (IF), Flow Cytometry (FACS) |

## Product Details

|                  |                                                              |
|------------------|--------------------------------------------------------------|
| Brand:           | AssayLite™                                                   |
| Immunogen:       | Human FABP1 (1-127aa) expressed in E. coli.                  |
| Characteristics: | Purified antibody validated for specificity and sensitivity. |
| Purification:    | Affinity Purified                                            |

## Target Details

|                   |                                                                         |
|-------------------|-------------------------------------------------------------------------|
| Target:           | FABP1                                                                   |
| Alternative Name: | Fatty Acid-Binding Protein 1 (FABP1) ( <a href="#">FABP1 Products</a> ) |
| Gene ID:          | 2168                                                                    |

## Target Details

UniProt: [P07148](#)

Pathways: [Chromatin Binding, Regulation of Lipid Metabolism by PPARAlpha](#)

## Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Lyophilized

Buffer: Lyophilized from PBS pH 7.4, 20 mg/mL BSA, and 0.02 % Sodium Azide

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.
