Datasheet for ABIN5571442  
**Collagen Protein (COL)**

### Overview

Quantity:	1 g
Target:	Collagen (COL)
Origin:	Cow
Source:	Cow
Protein Type:	Native
Application:	Substrate (S)

### Product Details

Purpose:	Collagen
Characteristics:	Lyophilized, Shredded, insoluble preparation.
Purification:	Native protein purified from Bovine Achilles Tendon according to the method of Einbinder and Schubert, J. Biol. Chem., 188, 335.(1951)

### Target Details

Target:	Collagen (COL)
Alternative Name:	Collagen ( <a href="#">COL Products</a> )

### Application Details

Application Notes:	Substrate for collagenase
Comment:	Native protein purified from Bovine Achilles Tendon according to the method of Einbinder and Schubert, J. Biol. Chem., 188, 335.(1951)

## Application Details

---

Restrictions: For Research Use only

## Handling

---

Format: Lyophilized

Handling Advice: Aliquot to avoid repeated freezing and thawing.

Storage: 4 °C
