Datasheet for ABIN5571443 Collagenase Protein

Overview

Quantity:	100 mg
Target:	Collagenase
Origin:	Clostridium
Source:	Clostridium
Protein Type:	Native
Biological Activity:	Active

Product Details

Purpose:	Collagenase (<i>C. histolyticum</i>)
Characteristics:	Lyophilized. Animal Origin Free. This product with activity data is belong to bioactive protein.
Purification:	Native protein purified from Clostridium histolyticum. Prepared cultures grown in medium completely devoid of animal based components and designed for bioprocessing applications where introduction of animal derived pathogens must be prevented.

Target Details

Target:	Collagenase
Abstract:	Collagenase Products

Application Details

Application Notes:	Collagenase Assay, Tissue dissociation.
--------------------	---

Application Details

Comment: Native protein purified from *Clostridium histolyticum*. Prepared cultures grown in medium completely devoid of animal based components and designed for bioprocessing applications where introduction of animal derived pathogens must be prevented.

Restrictions: For Research Use only

Handling

Format: Lyophilized

Handling Advice: Aliquot to avoid repeated freezing and thawing.

Storage: 4 °C
