Datasheet for ABIN5571477

**Peroxidase Protein**

## Overview

Quantity:	100 mg
Target:	Peroxidase
Origin:	Horseradish
Source:	Horseradish ( <i>Armoracia rusticana</i> )
Protein Type:	Native
Biological Activity:	Active

## Product Details

Purpose:	Peroxidase (Horseradish)
Characteristics:	Lyophilized. Dialyzed. RZ >1.0. This product with activity data is belong to bioactive protein.
Purification:	Native protein purified from Horseradish Roots

## Target Details

Target:	Peroxidase
Abstract:	<a href="#">Peroxidase Products</a>

## Application Details

Application Notes:	Peroxidase Assay
Comment:	Native protein purified from Horseradish Roots

Application Details

Restrictions: For Research Use only

Handling

Format: Lyophilized

Handling Advice: The RZ (Reinheitzahl) is the absorbance ratio A403/A275, RZ has been used as an indication of purity.

Storage: -20 °C
