Datasheet for ABIN5571484

## Proteinase K Protein

### Overview

Quantity: 25 mg

Target: Proteinase K

Origin: Fusarium

Source: Yeast

Protein Type: Native

Biological Activity: Active

### Product Details

Purpose: Proteinase K (*T. album*)

Characteristics: Recombinant *Tritirachium album* Proteinase K expressed in yeast.

This product with activity data is belong to bioactive protein.

Purification: in yeast

### Target Details

Target: Proteinase K

Abstract: [Proteinase K Products](#)

### Application Details

Application Notes: Isolation of intact DNA or RNA

Comment: Native protein purified from *Tritirachium album* limber

## Application Details

---

Restrictions: For Research Use only

## Handling

---

Format: Lyophilized

Handling Advice: Free of DNase and RNase.

Storage: 4 °C
