

Datasheet for ABIN5617288  
**anti-PICP antibody**

[Go to Product page](#)

## Overview

|              |                                     |
|--------------|-------------------------------------|
| Quantity:    | 400 µL                              |
| Target:      | PICP                                |
| Reactivity:  | Human                               |
| Host:        | Mouse                               |
| Clonality:   | Monoclonal                          |
| Conjugate:   | This PICP antibody is un-conjugated |
| Application: | ELISA                               |

## Product Details

|                             |  |
|-----------------------------|--|
| Immunogen:                  | PICP antibody was raised in Mouse using PICP purified from second trimester amniotic fluid by affinity chromatography as the immunogen |
| Clone:                      | M81582   |
| Isotype:                    | IgG1 kappa   |
| Specificity:                | 10-1954 is specific for native PICP from amniotic fluid  |
| Cross-Reactivity (Details): | Human  |
| Characteristics:            | Mouse monoclonal PICP antibody   |
| Purification:               | PICP antibody was purified from cell culture supernatant by protein A/G chromatography   |

## Target Details

|         |      |
|---------|------|
| Target: | PICP |
|---------|------|

## Target Details

---

Alternative Name: PICP ([PICP Products](#))

## Application Details

---

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

---

Buffer: Supplied in 0.01 M phosphate buffer, pH 7.4, containing 0.5 M NaCl and 15 mM sodium azide

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C

Storage Comment: Store at 4-8 deg C without exposure to light
