### Overview

|                      |                                                   |
|----------------------|---------------------------------------------------|
| Quantity:            | 100 µL                                            |
| Target:              | ADAR                                              |
| Binding Specificity: | C-Term                                            |
| Reactivity:          | Human                                             |
| Host:                | Rabbit                                            |
| Clonality:           | Polyclonal                                        |
| Conjugate:           | This ADAR antibody is un-conjugated               |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC) |

### Product Details

|                             |                                                                                                                                                               |
|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | ADAR1 antibody was raised in Rabbit using a KLH-conjugated synthetic peptide encompassing a sequence within the C-term region of human ADAR1 as the immunogen |
| Specificity:                | Recognizes endogenous levels of ADAR1 protein                                                                                                                 |
| Cross-Reactivity (Details): | Mouse, Rat, Pig                                                                                                                                               |
| Characteristics:            | Purified Polyclonal ADAR1 antibody                                                                                                                            |
| Purification:               | ADAR1 antibody was purified by immunogen affinity chromatography                                                                                              |

### Target Details

|                   |                                         |
|-------------------|-----------------------------------------|
| Target:           | ADAR                                    |
| Alternative Name: | ADAR1 ( <a href="#">ADAR Products</a> ) |

## Target Details

Pathways: [Protein targeting to Nucleus](#)

## Application Details

Application Notes: WB: 1:500 - 1:1000, IHC: 1:100 - 1:200

Restrictions: For Research Use only

## Handling

Format: Liquid

Buffer: Supplied in liquid form in 0.42 % Potassium phosphate, 0.87 % Sodium chloride, pH 7.3 with 30 % glycerol and 0.01 % sodium azide

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C/-20 °C

Storage Comment: Store at 4 deg C for short term storage. For long term, aliquot and store at -20 deg C. Avoid repeat freeze/thaw cycles
