## Overview

|                      |                                                                                                          |
|----------------------|----------------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                                                   |
| Target:              | Cytokeratin 5 (KRT5)                                                                                     |
| Binding Specificity: | C-Term                                                                                                   |
| Reactivity:          | Human                                                                                                    |
| Host:                | Rabbit                                                                                                   |
| Clonality:           | Polyclonal                                                                                               |
| Conjugate:           | This Cytokeratin 5 antibody is un-conjugated                                                             |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), Immunofluorescence (IF),<br>Immunocytochemistry (ICC) |

## Product Details

|                             |                                                                                                                                                                               |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | Cytokeratin 5 antibody was raised in Rabbit using a KLH-conjugated synthetic peptide encompassing a sequence within the C-term region of human Cytokeratin 5 as the immunogen |
| Specificity:                | Recognizes endogenous levels of Cytokeratin 5 protein                                                                                                                         |
| Cross-Reactivity (Details): | Mouse, Rat, Bovine, Pig                                                                                                                                                       |
| Characteristics:            | Purified Polyclonal Cytokeratin 5 antibody                                                                                                                                    |
| Purification:               | Cytokeratin 5 antibody was purified by immunogen affinity chromatography                                                                                                      |

## Target Details

|         |                      |
|---------|----------------------|
| Target: | Cytokeratin 5 (KRT5) |
|---------|----------------------|

## Target Details

Alternative Name: Cytokeratin 5 ([KRT5 Products](#))

## Application Details

Application Notes: WB: 1:500 - 1:1000, IHC: 1:100 - 1:200, IF: 1:100 - 1:500, ICC: 1:100 - 1:500

Restrictions: For Research Use only

## Handling

Format: Liquid

Buffer: Supplied in liquid form in 0.42 % Potassium phosphate, 0.87 % Sodium chloride, pH 7.3 with 30 % glycerol and 0.01 % sodium azide

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C/-20 °C

Storage Comment: Store at 4 deg C for short term storage. For long term, aliquot and store at -20 deg C. Avoid repeat freeze/thaw cycles
