## Overview

|                      |                                                                           |
|----------------------|---------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                    |
| Target:              | LHX1                                                                      |
| Binding Specificity: | Center                                                                    |
| Reactivity:          | Human                                                                     |
| Host:                | Rabbit                                                                    |
| Clonality:           | Polyclonal                                                                |
| Conjugate:           | This LHX1 antibody is un-conjugated                                       |
| Application:         | Western Blotting (WB), Immunofluorescence (IF), Immunocytochemistry (ICC) |

## Product Details

|                             |                                                                                                                                                             |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | LHX1 antibody was raised in Rabbit using a KLH-conjugated synthetic peptide encompassing a sequence within the center region of human LHX1 as the immunogen |
| Specificity:                | Recognizes endogenous levels of LHX1 protein                                                                                                                |
| Cross-Reactivity (Details): | Mouse, Rat                                                                                                                                                  |
| Characteristics:            | Purified Polyclonal LHX1 antibody                                                                                                                           |
| Purification:               | LHX1 antibody was purified by immunogen affinity chromatography                                                                                             |

## Target Details

|                   |                                        |
|-------------------|----------------------------------------|
| Target:           | LHX1                                   |
| Alternative Name: | LHX1 ( <a href="#">LHX1 Products</a> ) |

## Application Details

|                    |                                                           |
|--------------------|-----------------------------------------------------------|
| Application Notes: | WB: 1:500 - 1:1000, IF: 1:100 - 1:500, ICC: 1:100 - 1:500 |
| Restrictions:      | For Research Use only                                     |

## Handling

|                    |                                                                                                                                  |
|--------------------|----------------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                           |
| Buffer:            | Supplied in liquid form in 0.42 % Potassium phosphate, 0.87 % Sodium chloride, pH 7.3 with 30 % glycerol and 0.01 % sodium azide |
| Preservative:      | Sodium azide                                                                                                                     |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.           |
| Storage:           | 4 °C/-20 °C                                                                                                                      |
| Storage Comment:   | Store at 4 deg C for short term storage. For long term, aliquot and store at -20 deg C. Avoid repeat freeze/thaw cycles          |
