## Overview

|                      |                                                 |
|----------------------|-------------------------------------------------|
| Quantity:            | 100 µL                                          |
| Target:              | MAP3K13                                         |
| Binding Specificity: | Center                                          |
| Reactivity:          | Human                                           |
| Host:                | Rabbit                                          |
| Clonality:           | Polyclonal                                      |
| Conjugate:           | This MAP3K13 antibody is un-conjugated          |
| Application:         | Western Blotting (WB), Immunoprecipitation (IP) |

## Product Details

|                             |                                                                                                                                                           |
|-----------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | LZK antibody was raised in Rabbit using a KLH-conjugated synthetic peptide encompassing a sequence within the center region of human LZK as the immunogen |
| Specificity:                | Recognizes endogenous levels of LZK protein                                                                                                               |
| Cross-Reactivity (Details): | Mouse, Rat, Bovine, Chicken, Dog, Rabbit                                                                                                                  |
| Characteristics:            | Purified Polyclonal LZK antibody                                                                                                                          |
| Purification:               | LZK antibody was purified by immunogen affinity chromatography                                                                                            |

## Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Target:           | MAP3K13                                  |
| Alternative Name: | LZK ( <a href="#">MAP3K13 Products</a> ) |

## Target Details

Pathways: [Signaling Events mediated by VEGFR1 and VEGFR2](#)

## Application Details

Application Notes: WB: 1:500 - 1:1000, IP: 1:10 - 1:100

Restrictions: For Research Use only

## Handling

Format: Liquid

Buffer: Supplied in liquid form in 0.42 % Potassium phosphate, 0.87 % Sodium chloride, pH 7.3 with 30 % glycerol and 0.01 % sodium azide

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C/-20 °C

Storage Comment: Store at 4 deg C for short term storage. For long term, aliquot and store at -20 deg C. Avoid repeat freeze/thaw cycles
