

## Datasheet for ABIN5621928 **anti-Cyclin D3 antibody**

[Go to Product page](#)

### Overview

|              |                                          |
|--------------|------------------------------------------|
| Quantity:    | 100 µg                                   |
| Target:      | Cyclin D3 (CCND3)                        |
| Reactivity:  | Human                                    |
| Host:        | Mouse                                    |
| Clonality:   | Monoclonal                               |
| Conjugate:   | This Cyclin D3 antibody is un-conjugated |
| Application: | Western Blotting (WB), ELISA             |

### Product Details

|                             |                                                                                                                                 |
|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | CCND3 antibody was raised in Rabbit using a purified recombinant fragment of human CCND3 expressed in E. Coli as the immunogen. |
| Clone:                      | M81916                                                                                                                          |
| Isotype:                    | IgG                                                                                                                             |
| Cross-Reactivity (Details): | Mouse                                                                                                                           |
| Characteristics:            | Mouse Monoclonal CCND3 antibody                                                                                                 |

### Target Details

|                   |                                                                                                                                    |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | Cyclin D3 (CCND3)                                                                                                                  |
| Alternative Name: | CCND3 ( <a href="#">CCND3 Products</a> )                                                                                           |
| Pathways:         | <a href="#">Cell Division Cycle</a> , <a href="#">Mitotic G1-G1/S Phases</a> , <a href="#">Glycosaminoglycan Metabolic Process</a> |

Application Details

|                    |                                  |
|--------------------|----------------------------------|
| Application Notes: | WB: 1:500-1:2000, ELISA: 1:10000 |
| Restrictions:      | For Research Use only            |

Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Buffer:            | Supplied in ascitic fluid containing 0.03 % sodium azide                                                               |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | 4 °C/-20 °C                                                                                                            |
| Storage Comment:   | Store at 4 deg C short term. For long term storage, store aliquoted at -20 deg C. Avoid multiple freeze/thaw cycles    |
