

## Datasheet for ABIN5622827 **anti-PODXL antibody**

[Go to Product page](#)

### Overview

|              |                                                                                 |
|--------------|---------------------------------------------------------------------------------|
| Quantity:    | 100 µg                                                                          |
| Target:      | PODXL                                                                           |
| Reactivity:  | Human                                                                           |
| Host:        | Mouse                                                                           |
| Clonality:   | Monoclonal                                                                      |
| Conjugate:   | This PODXL antibody is un-conjugated                                            |
| Application: | Western Blotting (WB), Immunohistochemistry (IHC), ELISA, Flow Cytometry (FACS) |

### Product Details

|                  |                                                                                                                                 |
|------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:       | PODXL antibody was raised in Rabbit using a purified recombinant fragment of human PODXL expressed in E. Coli as the immunogen. |
| Clone:           | M82181                                                                                                                          |
| Isotype:         | IgG                                                                                                                             |
| Characteristics: | Mouse Monoclonal PODXL antibody                                                                                                 |

### Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Target:           | PODXL                                    |
| Alternative Name: | PODXL ( <a href="#">PODXL Products</a> ) |
| Pathways:         | <a href="#">Tube Formation</a>           |

Application Details

|                    |                                                                       |
|--------------------|-----------------------------------------------------------------------|
| Application Notes: | WB: 1:500-1:2000, IHC: 1:200-1:1000, FC: 1:200-1:400, ,ELISA: 1:10000 |
| Restrictions:      | For Research Use only                                                 |

Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Buffer:            | Supplied in ascitic fluid containing 0.03 % sodium azide                                                               |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | 4 °C/-20 °C                                                                                                            |
| Storage Comment:   | Store at 4 deg C short term. For long term storage, store aliquoted at -20 deg C. Avoid multiple freeze/thaw cycles    |
