

Datasheet for ABIN5623992
Cytomegalovirus (CMV) Protein

[Go to Product page](#)

Overview

Quantity:	100 µg
Target:	Cytomegalovirus (CMV)
Origin:	Cytomegalovirus (CMV)
Source:	Human
Protein Type:	Native

Product Details

Protein Source:	A concentrated source of human Cytomegalovirus particles purified by sucrose gradient ultracentrifugation
Characteristics:	Purified Native CMV protein (High Purity)
Purification:	Purified
Purity:	> 95 % pure

Target Details

Target:	Cytomegalovirus (CMV)
Alternative Name:	CMV (CMV Products)
Target Type:	Virus

Application Details

Restrictions:	For Research Use only
---------------	-----------------------

Handling

Buffer: Supplied in 0.2 % Triton X-100 STE

Storage: -80 °C

Storage Comment: Store at -80 deg C
