# Datasheet for ABIN5624198

## **Mutarotase**

### Overview

Quantity:	100 kU
Host:	Pig

### **Product Details**

Characteristics:	Mutarotase enzyme
Biological Activity Comment:	5000 U/mg protein 1 MU = approx 200 mg protein
Unit Definition:	Unit Definition: That amount of enzyme causing an increase in the rate of spontaneous mutarotation of A-D-Glucose to B-D-Glucose of one micromole per minute at 25 deg C and pH 7.0.

# **Application Details**

Restrictions:	For Research Use only
Handling	
Format:	Lyophilized
Buffer:	Supplied in lyophilized form
Storage:	-20 °C
Storage Comment:	Store at -15 deg C or below
