

Datasheet for ABIN5666936
anti-Adipsin antibody (N-Term)

[Go to Product page](#)

Overview

Quantity:	100 µg
Target:	Adipsin (CFD)
Binding Specificity:	N-Term
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This Adipsin antibody is un-conjugated
Application:	Western Blotting (WB), ELISA

Product Details

Immunogen:	Synthetic peptide corresponding to (18aa) internal peptide sequence near the N-terminal of human adipsin conjugated to KLH (P00746). Species Sequence Homology: chimp: 95%, bovine: 80%, porcine: 78%, rat: 70%, mouse: 63%.
Isotype:	IgG
Cross-Reactivity:	Human
Cross-Reactivity (Details):	Calculated cross reactivity: Hu
Characteristics:	Adipsin
Purification:	Purified by immunoaffinity chromatography.

Target Details

Target:	Adipsin (CFD)
Alternative Name:	Adipsin (CFD Products)
Pathways:	Complement System

Application Details

Application Notes:	Optimal working conditions should be determined by the investigator.
Restrictions:	For Research Use only

Handling

Format:	Liquid
Buffer:	Supplied as a liquid in PBS, 0.1 % BSA.
Storage:	-20 °C
Storage Comment:	-20°C
