Datasheet for ABIN5676000 **ZIKV NS1 Protein (His tag)**

Overview

Quantity:	100 µg
Target:	ZIKV NS1
Origin:	Virus
Source:	Escherichia coli (E. coli)
Protein Type:	Recombinant
Purification tag / Conjugate:	This ZIKV NS1 protein is labelled with His tag.
Application:	Lateral Flow (LF), ELISA, Western Blotting (WB)

Product Details

Characteristics:	Recombinant Zika virus NS1 protein with His tag
Purification:	Purified by aqueous solvent extraction and preparative electrophoresis to > 95% purity
Purity:	> 95 % pure

Target Details

Target:	ZIKV NS1
Alternative Name:	Zika virus NS1 (ZIKV NS1 Products)
Target Type:	Viral Protein

Application Details

Application Notes:	ELISA: 1-2 µg/mL protein range for titering Dengue virus converted human polyclonal
--------------------	---

Application Details

antibodies. Lateral Flow: 1-2 mg/mL (1-2 μ L/cm)

Restrictions: For Research Use only

Handling

Format: Liquid

Buffer: Supplied as liquid in 50 mM NaPO₄, pH 7.5

Storage: -80 °C

Storage Comment: Store in small aliquots at -70 deg C. Avoid repeated freeze thaw cycles.
