

## Datasheet for ABIN5687524 **anti-Presenilin 2 antibody**

[Go to Product page](#)

### Overview

|              |                                             |
|--------------|---------------------------------------------|
| Quantity:    | 0.5 mg                                      |
| Target:      | Presenilin 2 (PSEN2)                        |
| Reactivity:  | Human, Mouse                                |
| Host:        | Chicken                                     |
| Clonality:   | Polyclonal                                  |
| Conjugate:   | This Presenilin 2 antibody is un-conjugated |
| Application: | Western Blotting (WB)                       |

### Product Details

|            |                             |
|------------|-----------------------------|
| Immunogen: | Presenilin 2 Mixed Peptides |
|------------|-----------------------------|

### Target Details

|                   |                                                                                                                           |
|-------------------|---------------------------------------------------------------------------------------------------------------------------|
| Target:           | Presenilin 2 (PSEN2)                                                                                                      |
| Alternative Name: | Presenilin 2 ( <a href="#">PSEN2 Products</a> )                                                                           |
| Gene ID:          | 5664                                                                                                                      |
| UniProt:          | <a href="#">P49810</a>                                                                                                    |
| Pathways:         | <a href="#">Notch Signaling</a> , <a href="#">EGFR Signaling Pathway</a> , <a href="#">Neurotrophin Signaling Pathway</a> |

### Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
|--------------------|--------------------------------------------------------------------|

Application Details

---

Restrictions: For Research Use only

Handling

---

Format: Liquid

---

Storage: -20 °C

---

Storage Comment: 2-8°C for one week, -20°C as an undiluted liquid for up to two year.
