

Datasheet for ABIN5692159
anti-Histone H3.3 antibody (G34V)

[Go to Product page](#)

Overview

Quantity:	100 µg
Target:	Histone H3.3 (H3F3A)
Binding Specificity:	G34V
Reactivity:	Human
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This Histone H3.3 antibody is un-conjugated
Application:	Immunohistochemistry (IHC), Immunocytochemistry (ICC), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p))

Product Details

Clone:	329E5
Isotype:	IgG2b
Specificity:	Knockout verified
Purification:	purified IgG

Target Details

Target:	Histone H3.3 (H3F3A)
Alternative Name:	Histone 3.3 (H3F3A Products)
Background:	Synonyms: H3F3A, G34V, Histon 3-3 G34V

Application Details

Application Notes:	Optimal working dilution should be determined by the investigator. It is not recommended to use this product in WB.
--------------------	---

Restrictions:	For Research Use only
---------------	-----------------------

Handling

Format:	Lyophilized
---------	-------------

Handling Advice:	Do not store diluted antibody solutions unless you add detergent or carrier proteins such as goat serum, BSA or others. IgG sticks to glass and plastic. Any IgG solution below 0.1 mg/mL protein will quickly adsorb and denature and thus lose activity! Repetitive freeze-thawing of dilute purified IgG is almost certain to lead to substantial losses.
------------------	--

Storage:	-20 °C
----------	--------

Storage Comment:	Unlabeled antibodies are stable in this form without loss of quality at ambient temperatures for several weeks or even months. They can be stored at 4 °C for several years.
